

Calculate Price Flag in Oracle Order Management

Price Flag indicates the control for which the price is frozen.

The screenshot displays the Oracle Order Management interface. At the top, there are tabs for 'Order Information' and 'Line Items'. Below this, a header shows 'Sale Officer Folder' and 'Order Total 90.00'. A secondary set of tabs includes 'Main', 'Pricing', 'Shipping', 'Addresses', 'Returns', 'Services', and 'Others'. The main content area is a table with the following columns: Line, Ordered Item, Amount, Calculate Price Flag, Payment Terms, Agreement, and Price. Two rows are visible, both with 'Freeze Price' in the 'Calculate Price Flag' column. The first row (Line 1.1) has an amount of 0.00 and a price of 50. The second row (Line 2.1) has an amount of 0.00 and a price of 40. At the bottom, a summary row shows 'Line Total 50.00', 'Line Qty 50', and 'Service Total 0.00'.

Line	Ordered Item	Amount	Calculate Price Flag	Payment Terms	Agreement	Price
1.1	01-02-011002-0	0.00	Freeze Price	0 Days Credit		50
2.1	01-02-011002-0	0.00	Freeze Price	0 Days Credit		40

Line Total Line Qty Service Total

Adjustment is based on lookup type CALCULATE_PRICE_FLAG which are

1. **Y** = (Calculate Price): Apply all prices and modifiers to the request line.
2. **N** = (Freeze Price): Do not apply any prices or modifiers to the request line.
Consider the volume of the request line when processing LINEGROUP modifiers for other lines.
3. **P** = (Partial Price): Apply prices and modifiers in phases whose freeze override flag is Y.

If it is set to Calculate Price (Y), both pricing and freight charges calculation are done.

If it is set to Partial Price (P), only freight charges calculation is done.

If it is set to Freeze Price (N), neither pricing nor freight charges calculation is done

Calculate Price Flag Passed by the calling application to enable the calling application to fully or partially freeze a price request. Depending on the value of the flag, price may be completely frozen, or additional modifiers may be applied in certain phases.

If it is set to Freeze Price, neither pricing nor freight charges calculation is done.

If any order line for an order has the Calculate Price Flag value equal to Partial Price or Freeze Price new order level adjustments will not be applied or allowed to be overridden.

If it is set to Calculate Price, both pricing and freight charges calculation are done.

If it is set to Partial Price, only freight charges calculation is done.

If it is set to Freeze Price, neither pricing nor freight charges calculation is done
